Access System Upgrade

For Cat® 785 & 789 Trucks

Improved Platform and Cab Access

Caterpillar is pleased to announce the introduction of a field installed, diagonal stairway retrofit kit for the 785 and 789 large off-highway trucks. The stairway improves access to and from the platform and cab.

Caterpillar's field installed, diagonal stairway retrofit kit will improve access to the platform and cab, thereby reducing risks of slips, trips and falls. It should be noted that with the newly installed, diagonal stairway upgrade kit, Caterpillar instructs that individuals face the direction of travel when using the stairs, maintain a minimum of two points of contact at all time, and always have one hand in contact with the handrail. The 785 and 789 retrofit stairway is 600 mm (24") wide and is integrated diagonally across the front of the machine. This kit includes a stairway, bumper extension, handrails, walkway and a secondary egress ladder. The 785 and 789 packages have been released as field-installed attachments, applicable to both B and C-Series trucks.

CATERPILLAR®

Cat® Upgrade Kit - 785 & 789 Trucks

Enhanced Reliability and Durability

With the introduction of the field installed, diagonal stairway retrofit kit for the 785 and 789 trucks, the customer is receiving an integrated solution from Caterpillar.

Model	New Upgrade Kit Part Number	Catwalk As (Required)	Ground Level Access Kit (Optional)
785B (6HK)	353-2780	311-3248	n/a
785C (1HW & APX)	353-2780	294-3689	n/a
789B&C (7EK & 2BW)	353-2782	n/a	353-5988

Ordering Information

New 785C and 789C machines are equipped with the standard ladders. The diagonal stairway kits must be ordered as a retrofit kit and catwalk/access kits must be ordered separately. Retrofit stairway kits and associated serviceable components are available through your Cat Dealer parts system, both domestically and internationally. Please contact your local Cat Dealer for availability.

Product Specifics

- Retrofit stairway is 600mm (24") wide
- Upgrade provides secondary egress ladder
- Field installed attachment
- Cat integrated and validated design
- Flexible offering reduces cost and waste

Product Support

- Detailed step-by-step Special Instructions (SI) with graphics available electronically via SIS Web to reduce installation down time
  - 785 - REHS4406 "Installation of the Ladder Gp and Catwalk As"
  - 789 - REHS2672 "Installation of Ladder Gp and Optional Ground Level Access Gp."
- Improved part availability
- Components individually serviced and backed by standard Caterpillar parts service & warranty
